Prohibition in Broshead.

[To the Editor of the Interior Journal.] Let us give you a little history of Bredhead and vicinity before and after the adoption of prohibition: Before it was prohibited whisky and other Infoxicants were sold in abundance, and just another auch place for indecency and disorder could scarcely be found. It wasn't eafe for a decent lady to pass along the streets, for she might be insulted by some drunken sot. Only one store; no churches or Sunday. schools, Manonic lodge or but little of anylking that was pertaining to good. Words or language would fail to describe the evils of this place. DEMOCRATIC TICKET. For Congress,

JAMES B. MCCREARY.

Of Madleon.

THE democrats in the Third Distric made a mess of it indeed. The Halsell men met on the court-house steps in Franklin and nominated him, while the Rhea men him the nominee. The Halsell convention, harring its position on the steps, seems to cailed to order by the district chalrman, but the Rhes men claim to have had the votes. Both eides were afraid of eachother and a dispute over tickets of admission seems to have been the ostensible cause of the spiit. As the thing stands a republican will walk off with the cake, but it is understood that a proposition to refer the matter to a primary election, to be had next Saturday week, has been accepted by Halsell and will likely be by Rhea. To au outsider, unices the one or the other will withdraw, or submit to the arbitration of friends, that is the only fair way of decidlug who is the choice of the democracy. We hope to see the day when conventions, except for State and national offices, will be entirely discarded and the primaries substituted. They are not absolutely free of objection or fraud, but the rascally pollticians can not manipulate them so readily and defeat the will of the people so flagrautly as in conventions, which have absolutely become so corrupt as to threaten the life of the party. Let's have done with

THE New York Knights of Labor he lieve in negro equality and practice it, but then that is only question of taste and according to how a man is raised. District 49 on a visit to Richmond applied to the Merchant's Hotel for accommodations, The proprietor agreed to take them, with the exception of their negro compeniou, but they became indignant and left, subsequently showing their desire to sleep with the negro by engaging hoard with him at a colored establishment. If the Knights of Labor are for the purpose of breaking down the barriers between the races, it had just as well go now as later, for It is sure to do

THE New York World concludes an exhaustive article on the liquor question with these words: No party can affordto put it on the low ground of votes alone -to oppose reasonable regulation of the liquor traffic. The policy of high license tends to shut up the low groggeries, while it brings back to the taxpayers a portion of the inevitable public expense caused by intemperance. There is a safe middle ground between prohibitory fanaticiem and an unrestricted traffic.

SENATOR VOORHEES' speech at Indianap. olis Monday night opening the campaign in Indiana, is chock full of democratic amunition that emaller guns might study and fire at other audiences. The Senator has nothing but good words for the administration of Mr. Cleveland and nothing but condemnation for the iniquitoue workings of the civil service humbug.

Wigoins' earthquakes and cyclones did not meterialize in the slightest degree and now he tries to snesk out of the whole business by accusing the reporter of putting words in his mouth that he never uttered. This is his second big failure as a prophet and the public ought now to be convinced that E. Stone Wiggins ie a fraud and a chariatan.

THE friends that he made all over this section of the State by his arbitrary ruling at the Lehanon convention, will learn with roader, is having built at the home of his regret that Gen. John Rodman was defeated for reporter of the Court of Appeals by Edward W. Hines. In other words, the General is neither a victor nor will be get any of the epoils. It is sad, very, very

A WASHINGTON, N. Y., editor published some derogatory statements of two young ladies in his paper and the next day while he was attending the county fair, they come upon him with rawhldes and heat him within an inch of his life. Served him right. Au editor bas no husiness saying anything but nice things about the fair

THE General Passenger Agent's office of the Newport News & Mississippi Valley Railroad, has been removed from Richmond to Louisville and that officer, Mr. Harry W. Fuller, has taken up bis reeidence in that city.

THE Secretary of the Treasury has issued another bond call of \$15,000,000, three per cents. This is reducing the surplus even faster than Morrison proposed. Let the good work he kept up.

WE have not received our London Lead er for last week yet. How is that Bro. Craft? We absolutely "can't do without it." So jog your malling clerk up a littie

THE Connecticut democrats have noninated Hon. Edward S. Cleveiand as their caudidate for governor and if he is as lucky as his namesake he'll get there.

THE Winchester Democrat has shad its "patent" and now prints both sides at home. There is hesides a general improvement in the make up of the paper.

THAT jovial old cirl, Mrs Belva Lock

In a convention called in Trimble county to endorse Hon. John G. Carlisle, which the republicane for governor of Massachu was done, the demograts assembled seemed setts. He is the present Lieutenant Gov. to have imagined that they were acting in ernor of the State, and is a son of Oakes a National capacity. They took a whack Ames, of Credit Mobilier notoristy. at the war tariff exacted from the people in time of peace; endorsed the Morrison resoand a fraud the civil service law and while endorsing Mr. Cleveland, demanded that he go considerably faster in filling the offices with men friendly to the democratic administration. The sentiments will be euthe regret will be felt that the Trimble democrats can do nothing further in the premises but pass resolutions.

A DISPATOH from Atlania says that the accembled in the court-room and declared prohibitionists suffered a severe defeat Wedneeday in the primarles for the election of four representatives in the city, the majorbe the more regular of the two, since it was ity being 1,500 against them in a vote of 4, 700. Both tickets were made up of democrats, the successful one being known as the "conservative." The campaign, continues the dispatch, was short and hitter and hoth sides all day worked for what they were worth. Some of the strongest democratic men who formerly favored the prohibition movement, but who subsequently became convinced that Atlanta was being injured by probibition laws to the extent of many thousands of dollars annually, bolted the temperance ticket and supported the opposition.

> This section is practically unanimous for Coi. A. G. Talbott for minister to Aushaving spent 14 years of his life as legislator and Congressman. There is uo doubt every prominent man to whom it was preseuted here Wednesday.

SENATOR BECK is working on his fences in earnest and if he does not succeed himreif as Senator it will not be because of a of age, and yet his life has been an eventproper effort. He is already turning up on ful one. At the commencement of the war court days in various parts of the State he was an uneducated slave employed in and making speeches.

Great Wide Green Fields of Grapes Little Left to Will or Nature-"Slipa" or "Cuttings"-A Well Trimmed Vineyard-Gathering the Fruit.

I am going to set down some facts about grapes and this very great industry which I have come across out here in the California vineyards. In the first place, it may not be generally known that we gather two crops a year out here from the most of our vines. But this is the case. It seems strange to see the great wide green fields of grapes still continue green, as green as it is possible for green to be, all the senson through, without a drop of water, and go right on and blossom and bear a second crop so soon as the first one is guthered; and it is a fact to store up in your memory and set down to the credit of Cali-

There are perhaps fifty kinds of vines here; maybe I could safely double that number. But the most popular grape is a Hungarian variety. We use no Spanish vlues now except the hardy and honest old "mission grape." And where the mission grape came from no one now can tell. Of course it is of Spanish origin, brought here by the monks; but it is not to be found in any part of Spain now. This, the mission grape, which was for many y are the only kind of grape grown in Cullformia, is not used for while-making at all now, nor is it grown to any great extent. But it is a good table grape, and the few re-maining vineyards of this variety are devoted to the table and to the making of

The great improvement in California wines within the last few years is due largely to the improvement in the plant. It would only lead to confu ion, and few would care to read the long list of rare grapes that you almost daily here about here in the heart of the greatest grape land in the world, and so I will not give the names, but the search for rare and suitable grapes is zenious and per-sistent all over the world. Men are kept constantly traveling in Europe and Asla seeking new varieties.

MODERN GRAPE CULTURE. The vermin which attacked and destroyed the vines of France is a sort of lon - which destroys the root of the vine. It has made its appearance in California, but its advance has been checked, and its further progress is not greatly feared. Still, It is conceded that the Chlifornian who claimed to have discovered a certain remedy, and secured a patent for the same, has not yet received the millions which France and Italy offered as a reward. I may mention; ' when the panic inchlent to the appearance o. . vermin in the grape Welds here was ni its he hat the grape growers results. The louse does not attack American vines, only imported ones.

But there is little left to the wid or the nature of the vine in modern graje cultura You will have to tear down all the claimbering vines which the old Greeks loved to picture on their vases or in their poems. There is little left that is poetic in the grape here. There is nothing that is even beautiful except this one I road sea of green, and this is beauti-

years it will be clinging to rock or stump, brier or bush, mything that is nearest, covering up with its wonderously beautiful leaves and tendrils all the hard angles and ugly features of whatever it clings to, trying its Lest to make this beautiful world still more beautiful. Another evidence of its sweet root and had one or two years of leisure and liberty in the nursery, it is dug up and set in regimental line, no more to run riot or grow and reach out and cling, and vover up the folliss and the faults of others.

A WELL TRIMMED VINEYARD. These cuttings are new planted about as wide apart—oue in each bill—as corn in the great rorn Helds of the west. And It is at once cut down almost to the ground. As I said before, you ranst abandon all your old picture ideas founded on Bible tuies or traditions from profane history. For the grape in California is permitted to be only a stump. Every year it is shorn down almost to the ground. Out youder in the ulmost shoreless sea of green grapevines you can find stumps of grape trees almost us thick as your body. But the vines are only of this year's growth. A well trimmed vineyard in Cali-Iornia, after the last crop is gnthered, looks exactly like a field of stungs in a clearing.

Not much remance or Leauty about that. But there is plenty of money and this is the way that pays best, and postry must yield to

How much will one acre yield! Well, In Mapa vall y they show you a field that yields fourteen tens of grapes to the acre. But this is an extraordinary yield. From elg'at to ten tons is the average erep. Tiseso grapes are ery at some win press. They bring from \$20

The pattiet and cleanest employment 1 ever saw is that of gathering grapes. But It is hard on the back, and in the and is not easy work. Of course, the ugly stamps are entirely hid ben by the vines long before harvest time, Indeed, the thousand vines and tendrils and blessoms that branch out from the little black stump in the earliest days of spring have long before harvest time completely covered every inch of ground with vines and leaves and tendrils that reach almost to your waist. And the stamp is one solid mass of luscious grapes. They are all there clinging to the stump, not scattered about over the ground on the long vines that are to be shorn away. But you begin to feel down in the dense mass of leaves and tendrils and explained to him the mental process refor your stump, and at every stump you find

a little cartload of grapes. But, alas, notwithstanding all I can say or do, I fear my fellow laborer will cling to the that he was in the position of a true gentledirty alleys of the dismal citles, bug his hatred of those who have tolled and braved danger and made life a suress. He prefers the pesthouse for his children to the green grapeflel is and the sweet air of the roomy west -Joaquin Miller in The Chicago Times.

The "Kroomassle" Garden Patch.

The old Dutch settlers gave very curlous names to the various parts of New York Far up town there was a garden patch bounded by streams and ravines which they called the Kroomassle, or shocknife, from its resemblance to the shape of that Instrument. The time came when the Kroomassie was covered by a dense population, and its original name became involernized into Gramercy park-the latter being a pretty little enclosure where nature struggles with all the disadvantages of a surrounding wilderness of brick and mortar.-New York Letter.

AT THE CONCERT.

Around the hall the lights thene down On hall the beauty of the town, On awaying, perfumed multitudes, That rustled like the summer woods; And my own well-beloved was there,

And while, with many a look and stir, Men lowed and smiled their love to her. And good-named youths, whose blood ran high, Were happy when they caught her eye, I knew, as sure as sure could be, She put the white rose there for me!

Ah, well beloved! the space is wide That keeps me yearning from thy side; What hills and mountains intervene! What seas and rivers roll between! But Love can laugh at heights like these, And Love can bridge the very seas!

—Abraham Perry Miller.

A PICTURESQUE ARAB DANCE.

of the Desert-Passlounto Measure. The Arab quarter (at Port Said) consists at present of booths and wooden huts, and the bazars possess for experienced travelers little Interest or picturesqueness. In one of them, Ghawazki girls were languidly dancing before the usual audience of low class Arabs and

however, we found a native cafe, where two negro connolsseurs. One clad in scarlet was a novice of no skill; the other-graceful and elever, with a handsome face of the old Egyptian type, worn hard and marked by a life of vice-was prettily dressed in wide trowsers of purple and gold, a spangled jacket know la, can I sew with them!" and headdress of colus and heads, with a jingling girdle of silver amulets.

Asked if she could perform for us the "balauce dance," she consented to exhibit that well known Egyptian pas for the modest conshileration of two frances and a bottle of English beer. The cork of this contribution be ing drawn, a lighted candle was fixed in the neck of the bottle, which was then placed upon the crown of her black and glossy little head. A carpet was next spread upon the sand, and extending her bands, armed with castanets, and singing in a high but not unpleasant voice to the accompaniment of a darabonka and vabab, she swayed her lithe body in slow, rhythmical motions to the words of her song and the measured bent of the musicians: "I am black, but it is the son of thy love which has scorehed mel. Scul me some rain of help from thy pity, I am lhirstlug for thee.'

The Ghawazki began with Arabic words of this tenor, keeping exact time to her strain with foot and hand and the tremors of her not take kindly to spectacles, and few of them thrilling slender frame; now slowly turning round, now softly advancing and receding, old age. It is usually some other excuse. now elasping her hands across her bosom or pressing them to her forehead-that perpetually keeping the bottle and lighted candio in perfect equilibrium upon the top of her head. Suddenly she sank, with the change of the musical accompaniment, to the ground, and -while not only maintaining the completest harmony of her movement, but even making this strange posture one of grace and charm -she contrived in some dexterous mann r without touching it, to shift the bottle from sorted to the Missouri grapes, with good re- the top of her head to her forhead, and thus reclined on the mat, her extended lingers softly slapping the eastanet, her light, girlish frame paipitating from crown to feet, always In the dreamy passionate measure of the nncient love song .- Mr. Arnold, in Rochester

In all the departments there are employes who held their positions, not on the strength of ful indeed when brought late sharp centrast their political influence, but upon the strength with the yellow and russet and tawny old of their peculiar abilities. Among these is lion-like hills which tower up and hang high ' Patrick Byrnes, of the division of loans in the treasury department. For a dozen year "The grape is not raised from either the not an interest thick has left the department seed or root, but from "slips" or "cuttings" | that has not passed through his hands. The like the cane in the southern states. You interest on the bond is paid quarterly, and, can cut off almost any part of a grapevine, to insure absolute certainty that none of the and stick it in the ground, give it anything, checks go astray, it is absolutely necessary like half a chance, and in less than three that they should be sealed by one individual. As the holders of bonds are represented in number by many thousands, it would take three ordinary clerks to do the work, but Byrnes does the malling single handed. The checks are brought slown from the loan division and piled on his desk in stacks like cord wood. Each one must get in its right enfemininity. But after this "cutting" has taken | velope, which has been previously addressed; then Byrnes begins.

With no mechanical assistance except a wet sponge he starts in to do the sealing. Those who have seen Blitz or Hermann handle a pack of playing eards before a womlerstricken audience night have some idea of the way that Byrnes riffles the checks into the envelopes. Fifty a minute. How he does it no one knows. It is a sleight of hand, but so rapidly performed that the eye cannot follow the movement. Thump, thinup, thinup, all day long, and at the close of the departmental day he had filled three store boxes with sealed envelopes. Does he ever make a mistake? Well, no. The checks vary from \$50 to \$5,000, and a single mistake on his part might cost him a year's salary. It is safe to say that he never makes one. Of the thousands of people who quarterly receive these interest checks, few know of the wizard through whose hands they have passed .-Louisville Post.

Absorptive Fower of the Healn. The absorptive power of the brain is, in any

of its phases, an interesting study. A relined, well-educated gentleman thrown for any length of time into the society of a lot of slang-talking, ungrammatical people, nucon scionsly acquires some of their deplorable bubits of conversation, and rarely discovers sold by the ton. They are sometimes sold as It unless some friend in his proper circle of they stand; sometimes they are sold on deliv- society earls his attention to it. I recall an instance of a young man whose parsuits were of the stop r ton, a verding to the yield, as a literary character. He prid a himself, and be purchaser raised his offer to \$75,000. This justly, upon the purity of his diction, and spelling with him was a mutter of intuition. One day he accepted an engagement in a public office, and in the line of his duty he was required to read and answer many hundred letters, the great majority of which are illy-scrawied missives from ignorant people with startling of time the school directors concluded to tap original ideas of orthography.

At the end of a year I received a letter from the young man. Its expressions were in some Instances most Illy couched, and many simple words were misspelled in a manner that would have been ingenious were it not so atrocious. 1 met the young man and mentioned the letter to him in a kindly spirit of good nature. He became lindiguant and denounced my statement as absurd. I showed blin his letter, sponsible for the seening decline of his intellect. He asked for the remedy. I told him that there was none other than self-control, man surrounded by evtl associates. It was possible to preserve his self-control and remain with but not of them.-Dr. L. I wrote home to American papers all I dared about the true state of things: That Mexico was not a republic but a military despotism; that President Diaz was an honest dispot and Governor Fernanda a shameless corruptionist, who sold franchises of all sorts for what he could get; that a frre ballot was unknown, and the election was always dictated by the man la control of the troops; that there was not a nowspaper at the capital that was not either subsidized or terrorized; that there prevailed a cordial latred of "the Gringoes" (monkeys) as Americans were often called; that a law enabled the president to drive out of the country "olmoxlous foreigners" without a hearing; that the punishment of insurgents was generally death, and that many other offenders were "lost" on their way across the country to jall. Some of these facts I stated only toward the end of my visit, and before the papers returned there

Held on Too Long.

Two years ago oil was struck at the Marshall farm, in Venango county. The farm contained 350 acres, and before the oil was found would have been considered a good sale at \$10 an acre. The wells drilled on the farm were big "gushers", and opened up a new oil territory. A month after the lirst well was struck the f rm was sold for \$320,000. The Bartley farm adjoining also proved to be an oil farm, and was sold for \$65,000. The shool district of the township owned an acre of ground which, with a rod schoolhouse, was worth \$500. The schoolieuse property was surrounded by the blg wells, and all indications were that the acre was the center of a rich oil pool.

A prominent oil operator offered the school lirectors \$50,000 for the acre. The offer was refused. They held out for \$100,000. The would was the highest price ever offered for an acre of laml anywhere in the country. If it had been accepted this rural district would have been the richest country schoolhouse district In the Union. It was refused. Wells were put down all around the acre. In the course the rich velus of oil that were supposed to li umler the red schoollouse and its lot. At an expense of several thousand dollars they have put down werls, and the tract is found to be as dry as a bone. The schoolhouse prop erty is now rated at its ohl value of \$500, and the officials are very sick .- Allentown (Pa.) Register.

Punbshing Crime in Chims. They have their own ways of punishing crime in China. Incendiarism has given much trouble in a southern district of the country and a penalty was extemporized which will probably have a deterrent effect. A culprit taken red handed was placed during t long summer day in a cage, where his eyelids were burned with lighted incense sticks and hot incense dust was blown into his face. An official report states that the women in the neighborhood, several of whom had lost children in the fires, were especially active in adding to the severity of the punishment.-Brooklyn Eagle.

THE BEST

boon ever hestowed upon man is perfect health, and the true way to insure health Is to purify your blood with Ayer's Sarsaparlila. Mrs. Eliza A. Clough, 34 Ariington st., Lowell, Mass., writes: "Every winter and spring my family, including myself, use several bottles of Ayer's Saresparilla. Experience has convinced me that, as a powerful

purifier, it is very much superior to any other preparation of Sarsaparliia. All persons of scrofulous er consumptive tendencies, and especially delicate children, are sure to be greatly benefited by its use." J. W. Starr, Laconia, lowa, writes: "For years I was troubled with Scrofuious complaints. I tried several different preparations, which did me little, if any, good. Two bottles of Ayer's Sarvaparilla effected a complete cure. It is my opinion the: this medicine is the lest

Purifier

of the day." C. E. Upten, N. Lun, N. H., writes: "For a number of years I was troubled with a humor in my eyes, and unable to obtain telief until I commenced using Ayer's Sarsaparlila. I have taken several bottles, am greatly benefited, and believe it to be the best of blood purifiers." Il. Harris, Creel City, Runsey Co., Daketa, writes: "I have be n an intense sufferer, with Dyspop in, for the past three years. Six mouths ago I began

AYER'S Sarsaparilla

It has effected an rathe cure, and I am now as well as ever."

For Instant Use

As a reliable remedy, in cases of protty, Whooping Cough, or sudden Colds, and for the prompt reilef and cure of throat and lung diseases, Ayer's Cherry Pectoral is invaluable. Mrs. E. G. Edgerly, Council Biuffs, Iowa, writes: "I consider Ayer's Cherry Pectoral a most Important remedy for home use. I have tested its curative power, in my family, many times during the past thirty years, and have never known it to fail. It will relieve the most serious affectious of the throat and lungs, whether in children or adults." John II. Stoddard, Petersburg, Va., writes: "I have never found a medleine equal to

AYER'S Cherry Pectoral

for the prompt relief of throat and hing diseases peculiar to children. I consider it an absolute cure for all such affections, and am never without it in the house," Mrs. L. E. Herman, 187 Mercer st., Jersey Cliy, writes: "I have always found Ayer's Cherry Pectoral useful in my family." Il. T. Johnson, Mt. Savage, Md., writes: ." For the speedy cure of sudden Colds, and for the relief of children afflicted with Croup, I have never found anything equal to Ayer's Cherry Pectoral. It is the most potent of all the remedies I have ever used." W. H. Stlekler, Terro Haute, Ind., writes: "Ayer's Cherry Pectoral cured my wife of a severe lung affection, supposed to be Quick Consumptiou. We now regard the Peeloral as a household necessity." E. M. Hreckenridge, Brainerd, Minn., writes: "I am subject to Bronchills, and, wherever I go, um always sure to have a bottle of
